

## Immunizations and CB Tracker

Roxell EMT uses an online tracker called CastleBranch. The following is the list of the required immunizations for the EMT Program.

**We strongly recommend getting these taken care of immediately, as waiting until the last minute can cause a delay in starting your clinical internship. All immunization and must be completed by the fourth weeks of class.**

Requirements:

1. **MMR - Measles (Rubeola), Mumps, & Rubella**
  - Proof of two MMR's
2. **Varicella (Chicken Pox)**
  - Proof of two vaccinations at any time of the disease
3. **Hepatitis B**
  - Be in the process of completing (or have completed) the hepatitis-B vaccination three-shot series
4. **TB (Tuberculosis)**
  - Negative test within six months of the class start date
5. **Tdap (Tetanus, Diphtheria & Pertussis)**
  - Proof of vaccination within last 10 years)
6. **Flu (Influenza)**

In addition to your immunizations, you will also need to submit a **Physical Examination** form from your Doctor.

The document's requested will be uploaded and submitted for approval to your **Castle Branch account**. After registration you will receive an email with additional information on how to purchase and access your CB tracker. Activating your tracker will also cover the required **background check** and **drug screening**.
