

Course Overview/Content

Course Overview:

This Advanced Cardiac Life Support Experienced Provider (ACLS-EP) Course is designed to improve outcomes in complex cardiovascular, respiratory and other (eg, metabolic, toxicologic) emergencies by expanding on core ACLS guidelines and encouraging critical thinking and decision-making strategies. Through instruction and active participation in case-based scenarios, learners enhance their skills in the differential diagnosis and treatment of prearrest, arrest and postarrest patients. The ACLS EP Course is for seasoned healthcare providers who are proficient in performing BLS and ACLS skills, reading and interpreting ECGs, and understanding ACLS pharmacology and who regularly lead or participate in emergency assessment and treatment of prearrest, arrest or postarrest patients. This audience includes physicians, paramedics and emergency department or critical care nurses.

Course Content

Applying the expanded systematic approach (ACLS-EP Survey) to patient assessment, evaluation and management.

- Cardiovascular Emergencies
- Cerebrovascular Emergencies
- Clinical Pharmacology and Toxicology Emergencies

Effective communication within a resuscitation team and recognition of the impact of team dynamics on overall team performance.

- High Quality CPR
- Post-Cardiac Arrest Care
- Respiratory and Metabolic Emergencies
